Education

The University of Texas at San Antonio (UTSA)

San Antonio, TX

B.B.A. Cybersecurity and Information Systems (Dual Major)

Expected Graduation: May 2028

Relevant Coursework: Telecommunications and Networking; Principles of MIS; Business Computer Applications (Microsoft Office); Unlocking Cyber (gateway cybersecurity course); Operating Systems Security

Skills

Languages: Python (learning); Bash/Zsh (basic); HTML (basic); CSS

Tools: Windows 11; Linux (Ubuntu Server, Debian); Git/GitHub; Docker; Portainer; Tailscale; Wireshark

Frameworks / Platforms: Virtualization (VMs); Home lab environments; TCP/IP fundamentals

Certifications: CompTIA Security (In Progress)

Technical Projects

SQL Injection Lab (DVWA in Docker)

Dec 2025

- Deployed DVWA in a containerized environment using Docker to practice web security fundamentals in a safe, reproducible lab setup.
- Executed and documented SQL injection attack patterns.
- Produced a step-by-step lab writeup with commands, screenshots, and remediation notes to demonstrate practical security learning.

Home Lab: Remote Access & Services (Ubuntu Server, Docker, Tailscale) *Dec 2025 – Present*

- Built a multi-machine home lab to practice IT/security fundamentals; deployed containerized services with Docker/Portainer to standardize setup.
- Implemented secure remote access using Tailscale to manage internal services off-network via encrypted connectivity (SSH + admin panels).

Windows 11 Hardening Lab (Baseline Security Configuration)

Nov 2025

- Hardened a Windows 11 workstation by reviewing and applying baseline security settings (accounts, updates, services, and access controls).
- Documented configuration changes, rationale, and validation steps in a portfolio-ready format to improve repeatability and auditability.

Work Experience

UPS

San Antonio, TX

Package Handler

2023 – 2024

- Maintained consistent on-time performance in a high-throughput environment by following safety and process standards with minimal supervision.
- Resolved workflow blockers by coordinating with team leads and re-prioritizing tasks during peak volume to support shift efficiency.

Sunstate Equipment

San Antonio, TX

Yard Technician

2019 – 2022

- Performed routine inspections and issue triage on equipment; escalated complex problems and ensured accurate status reporting.
- Followed documented procedures (SOPs) and maintained organized inventory areas to support operational readiness and reliability.
